

Declaration of license transfer in case of hardware or system change

Answer by mail or fax to:

TESIS DYNAAware GmbH
Baierbrunner Str. 15, 81379 Muenchen
Fax: ++49 (0) 89 747377-99

On request, each installation-related license of the TESIS DYNAAware products can be changed during the license period to a different hardware or platform if it is supported by the licensed version. The licensee obtains then a changed license key for the new hardware identification (Host-ID, CPU-ID or MAC-adress). The licensee is liable to prevent the usage of the software on the old system by deleting the old license file and/or deinstallation of the software.

List of transfer:

License No.	TESIS DYNAAware products	Old HW-identification	New HW-identification

We herewith confirm that the installation-related license of the above mentioned TESIS DYNAAware software products are transferred from the system(s) with the old hardware identification to the new identification. The licensee is liable to delete the license file(s) immediately from the old systems and to prevent the usage of the software on the old systems conveniently.

The licensee is liable to pay a fine to the amount of the then valid license list price in case of any violation of the license right of illegal used software. Beyond it TESIS DYNAAware GmbH reserves to plead for further compensation claims.
